CONTENTS OF VOLUME 177

No. 1, JANUARY, 1949

PAGE

RIEGEL, BYRON, STANGER, D. WARREN, WIKHOLM, DONALD M., MOLD, JAMES D., and SOMMER, HERMANN. Paralytic shellfish poison. IV. Bases accompanying the poison 1

RIEGEL, BYRON, STANGER, D. WARREN, WIKHOLM, DONALD M., MOLD, JAMES D., and SOMMER, HERMANN. Paralytic shellfish poison. V. The primary source of the poison, the marine plankton organism, *Gonyaulax catenella* ... 7

MEHL, JOHN W., PACOVSKA, EVA, and WINZLER, RICHARD J. The amount of copper bound by protein in the biuret reaction 13

TEERI, ARTHUR E., and JOSSELYN, DOROTHY. The effect of certain sulfonamides upon *Lactobacillus arabinosus* in a nicotinic acid-restricted medium .. 23

KUIKEN, K. A., and LYMAN, CARL M. Essential amino acid composition of soy bean meals prepared from twenty strains of soy beans 29

STERN, HERBERT, and KIRK, PAUL L. Microgram analysis: further studies of determination of glucose and its application to the determination of sucrose . 37

STERN, HERBERT, and KIRK, PAUL L. Microgram analysis: a solid-liquid extractor and its application to extraction of sugars from plant materials 43

ELLIOTT, K. A. C., and BIRMINGHAM, MARION K. The effect of pH on the respiration of brain tissue; the pH of tissue slices 51

WOOD, JOHN L., and WILLIAMS, EDWARD F., JR. The metabolism of thiocyanate in the rat and its inhibition by propylthiouracil 59

STAHL, WILLIAM H., MCQUE, BERNARD, and SIU, R. G. H. Decomposition of cystine and wool by treatment in the ball mill and autoclave 69

BRUNELLI, ELEANOR, and WAINIO, W. W. A further purification of D-glucose dehydrogenase 75

BALL, ERIC G., SOLOMON, A. K., and COOPER, OCTAVIA. The production of radioactive cystine by direct bombardment in the pile 81

LI, CHOH HAO, GESCHWIND, I., and EVANS, HERBERT M. The effect of growth and adrenocorticotropic hormones on the amino acid levels in the plasma ... 91

NOVELLI, G. DAVID, KAPLAN, NATHAN O., and LIPMANN, FRITZ. The liberation of pantothenic acid from coenzyme A 97

ZAFFARONI, ALEJANDRO, BURTON, ROBERT B., and KEUTMANN, E. HENRY. The application of paper partition chromatography to steroid analysis. I. Keto steroids 109

SREENIVASAN, A., HARPER, A. E., and ELVEHJEM, C. A. The use of conjugase preparations in the microbiological assay of folic acid 117

LICHSTEIN, HERMAN C. The probable existence of a coenzyme form of biotin .. 125

REGISTER, U. D., RUEGAMER, W. R., and ELVEHJEM, C. A. An improved assay for a growth factor in liver extracts 129

BOREK, ERNEST, and WAELSCH, HEINRICH. Glutamic acid antimetabolites: sulfoxides and sulfones derived from methionine homologues; β-hydroxyglutamic acid 135

NIEFT, MARIE L., and DEUEL, HARRY J., JR. Studies on cholesterol esterases. I. Enzyme systems in rat tissues 143

NIEFT, MARIE L. Studies on cholesterol esterases. II. Characterization of the hydrolytic system from intestinal mucosa 151

DINNING, JAMES S., GALLUP, WILLIS D., and BRIGGS, H. M. Excretion of creatinine and creatine by beef steers 157
ROSEN, FRED, and PERLZWEIG, WILLIAM A. The effect of gelatin on the transformation of tryptophan to niacin in rats on low casein diets 163
ANCHEL, MARJORIE. Identification of the antibiotic substance from *Cassia reticulata* as 4,5-dihydroxyanthraquinone-2-carboxylic acid 169
STIFF, HENRY A., JR. A new colorimetric method for the determination of serum protein 179
PATTERSON, JOHN W., LAZAROW, ARNOLD, and LEVEY, STANLEY. Alloxan and dialuric acid: their stabilities and ultraviolet absorption spectra 187
PATTERSON, JOHN W., LAZAROW, ARNOLD, and LEVEY, STANLEY. Reactions of alloxan and dialuric acid with the sulfhydryl group 197
LINEWEAVER, HANS, FRAENKEL-CONRAT, HEINZ, and BEAN, ROSS S. Determination of trypsin in the presence of egg white trypsin inhibitor and demonstration of absence of trypsin from egg white 205
MAASS, ALFRED R., LARSON, FRANK C., and GORDON, EDGAR S. The distribution in normal tissues of radioactive sulfur fed as labeled methionine 209
SPICER, SAMUEL S., HANNA, CHARLES H., and CLARK, ARIEL M. Studies *in vitro* on methemoglobin reduction in dog erythrocytes 217
STEELE, ROBERT, SFORTUNATO, THEODORE, and OTTOLENGHI, LINA. A micromethod for the determination of the nucleic acids 231
POTTER, VAN R., and LEPAGE, G. A. Metabolism of oxalacetate in glycolyzing tumor homogenates 237
ALBERT, S., HEARD, R. D. H., LEBLOND, C. P., and SAFFRAN, JUDITH. Distribution and metabolism of iodo-α-estradiol labeled with radioactive iodine 247
HEHRE, EDWARD J. Synthesis of a polysaccharide of the starch-glycogen class from sucrose by a cell-free, bacterial enzyme system (amylosucrase) 267
CARLSON, ARTHUR S., and HEHRE, EDWARD J. Composition of the starch synthesized from glucose-1-phosphate by diphtheria bacilli 281
HEHRE, EDWARD J., CARLSON, ARTHUR S., and HAMILTON, DORIS M. Crystalline amylose from cultures of a pathogenic yeast (*Torula histolytica*) 289
GOULD, R. GORDON, SINEX, F. MAROTT, ROSENBERG, I. N., SOLOMON, A. K., and HASTINGS, A. BAIRD. Excretion of radioactive carbon dioxide by rats after administration of isotopic bicarbonate, acetate, and succinate 295
TOPPER, YALE J. Note on the synthesis of succinic acid labeled in the carboxyl position with radioactive carbon 303
SMITH, EMIL L., BROWN, DOUGLAS M., FISHMAN, JACOB B., and WILHELMI, ALFRED E. Sedimentation, diffusion, and molecular weight of crystalline pituitary growth hormone 305
STADIE, WILLIAM C., and HAUGAARD, NIELS. The hexokinase reaction in tissue extracts from normal and diabetic rats 311
SCOTT, KENNETH G., AXELROD, DOROTHY J., and HAMILTON, JOSEPH G. The metabolism of curium in the rat. Plates 1 and 2 325
TAUBER, HENRY. A new color test for tryptophan and related compounds 337
FEINSTEIN, ROBERT N., and VOLK, MURRAY E. Phosphoprotein phosphatase in mammalian tissues 339
VAN DE KAMER, J. H., HUININK, H. TEN BOKKEL, and WEYERS, H. A. Rapid method for the determination of fat in feces 347
HITCHINGS, GEORGE H., ELION, GERTRUDE B., FALCO, ELVIRA A., and RUSSELL, PETER B. A new synthesis of cytosine and 5-methylcytosine 357

HUNTER, F. EDMUND, JR. Anaerobic phosphorylation due to a coupled oxidation-reduction between α-ketoglutaric acid and oxalacetic acid 361
COOK, HYLA A., GRIFFIN, A. CLARK, and LUCK, J. MURRAY. Tissue proteins and carcinogenesis. II. Electrophoretic studies on serum proteins during carcinogenesis due to azo dyes 373
TERESI, J. D., and LUCK, J. MURRAY. The combination of organic anions with serum albumin. VI. Quantitative studies by equilibrium dialysis. A correction 383
FRAENKEL-CONRAT, HEINZ, BEAN, ROSS S., and LINEWEAVER, HANS. Essential groups for the interaction of ovomucoid (egg white trypsin inhibitor) and trypsin, and for tryptic activity 385
CHARGAFF, ERWIN, VISCHER, ERNST, DONIGER, RUTH, GREEN, CHARLOTTE, and MISANI, FERNANDA. The composition of the desoxypentose nucleic acids of thymus and spleen 405
CHARGAFF, ERWIN, and SAIDEL, HELEN F. On the nucleoproteins of avian tubercle bacilli 417
VISCHER, ERNST, ZAMENHOF, STEPHEN, and CHARGAFF, ERWIN. Microbial nucleic acids: the desoxypentose nucleic acids of avian tubercle bacilli and yeast 429
ABRAMS, ADOLPH, and COHEN, PHILIP P. Electrophoretic and chemical characterization of human lymphoid tissue and calf thymus 439
FAIRLEY, JAMES L., JR., and LORING, HUBERT S. Growth-promoting activities of guanine, guanosine, guanylic acid, and xanthine for a purine-deficient strain of *Neurospora* 451
SARETT, HERBERT P., and GOLDSMITH, GRACE A. Tryptophan and nicotinic acid studies in man 461
FRAENKEL-CONRAT, HEINZ, and MECHAM, DALE K. The reaction of formaldehyde with proteins. VII. Demonstration of intermolecular cross-linking by means of osmotic pressure measurements 477

Letters to the Editors

LICHSTEIN, HERMAN C. On the mode of action of biotin 487
ALTMAN, KURT I., SALOMON, K., and NOONAN, T. R. Hemin synthesis in rabbit bone marrow homogenates 489
RUTMAN, ROBERT, DEMPSTER, EVERETT, and TARVER, HAROLD. Genetic differences in methionine uptake by surviving tissue 491
NOVELLI, G. DAVID, FLYNN, RUTH M., and LIPMANN, FRITZ. Coenzyme A as growth stimulant for *Acetobacter suboxydans* 493
BERGSTRÖM, SUNE, ARVIDSON, H., HAMMARSTEN, E., ELIASSON, N. A., REICHARD, P., and v. UBISCH, H. Orotic acid, a precursor of pyrimidines in the rat 495

No. 2, FEBRUARY, 1949

FOLCH, JORDI. Complete fractionation of brain cephalin: isolation from it of phosphatidyl serine, phosphatidyl ethanolamine, and diphosphoinositide .. 497
FOLCH, JORDI. Brain diphosphoinositide, a new phosphatide having inositol metadiphosphate as a constituent 505
SCHUBERT, JACK, and ARMSTRONG, W. D. Rate of elimination of radioactive carbon administered as carbonate from the tissues and tissue components of mature and growing rats 521

GRAHAM, CLAIRE E., WAITKOFF, HELEN K., and HIER, STANLEY W. The amino acid content of some scleroproteins 529
STEELE, BETTY F., SAUBERLICH, H. E., REYNOLDS, M. S., and BAUMANN, C. A. Media for *Leuconostoc mesenteroides* P-60 and *Leuconostoc citrovorum* 8081 .. 533
SAUBERLICH, H. E., and BAUMANN, C. A. A microbiological determination of alanine 545
SEALOCK, ROBERT RIDGELY, and LIVERMORE, ARTHUR H. The action of aminobenzylthiazolium salts on thiamine destruction by the Chastek paralysis enzyme 553
BENDICH, AARON, GETLER, HELEN, and BROWN, GEORGE BOSWORTH. A synthesis of isotopic cytosine and a study of its metabolism in the rat 565
HUTCHENS, JOHN O., and KASS, BEATRICE M. A colorimetric microanalytical method for acetate and fluoroacetate 571
MADDY, KENNETH H., and ELVEHJEM, C. A. Studies on growth of mice fed rations containing free amino acids 577
BERGEIM, OLAF, and KIRCH, ERNST R. Reduction of iron in the human stomach. 591
KARLSSON, J. L., and BARKER, H. A. Biosynthesis of uric acid labeled with radioactive carbon 597
HARMON, KENT M., and NIEMANN, CARL. The competitive inhibition of the urease-catalyzed hydrolysis of urea by phosphate 601
COHEN, SEYMOUR S. Adaptive enzyme formation in the study of uronic acid utilization by the K-12 strain of *Escherichia coli* 607
FRANKLIN, A. L., BELT, MARGARET, STOKSTAD, E. L. R., and JUKES, THOMAS H. Biological studies with 4-amino-10-methylpteroylglutamic acid 621
NICHOL, C. A., ROBBLEE, A. R., CRAVENS, W. W., and ELVEHJEM, C. A. The growth response of chicks to antipernicious anemia preparations 631
TAGGART, JOHN V., and KRAKAUR, RICHARD B. Studies on the cyclophorase system. V. The oxidation of proline and hydroxyproline 641
CROSS, R. J., TAGGART, JOHN V., COVO, G. A., and GREEN, D. E. Studies on the cyclophorase system. VI. The coupling of oxidation and phosphorylation 655
SHREEVE, WALTON W., FEIL, GEORGE H., LORBER, VICTOR, and WOOD, HARLAND G. The distribution of fixed radioactive carbon in glucose from rat liver glycogen 679
KIBRICK, ANDRE C. A reaction of tryptophan with methyl alcohol which depends upon the formation of formaldehyde 683
ECKHARDT, RICHARD D., and DAVIDSON, CHARLES S. Urinary excretion of amino acids by a normal adult receiving diets of varied protein content 687
HORN, MILLARD, J., JONES, D. BREESE, and BLUM, AMOS E. Microbiological determination of leucine in proteins and foods 697
UMBREIT, W. W. A site of action of streptomycin 703
ZACHARY, JOHN B., and MOORE, WALTER J. Solubility of glycine, leucine, and tyrosine in liquid ammonia 715
HASTINGS, A. BAIRD, SOLOMON, A. K., ANFINSEN, CHRISTIAN B., GOULD, R. GORDON, and ROSENBERG, I. N. Incorporation of isotopic carbon dioxide in rabbit liver glycogen *in vitro* 717
GOULD, R. GORDON, HASTINGS, A. BAIRD, ANFINSEN, CHRISTIAN B., ROSENBERG, I. N., SOLOMON, A. K., and TOPPER, YALE J. Metabolism of isotopic pyruvate and acetate in rabbit liver slices *in vitro* 727
KELLER, ELIZABETH B., RACHELE, JULIAN R., and DU VIGNEAUD, VINCENT. A

study of transmethylation with methionine containing deuterium and C^{14} in the methyl group 733
WILLIAMS, VIRGINIA R., and FIEGER, E. A. Further studies on lipide stimulation of *Lactobacillus casei*. II 739
WILLIAMS, VIRGINIA R., and WILLIAMS, H. B. Surface activity of biotin 745
GORNALL, ALLAN G., BARDAWILL, CHARLES J., and DAVID, MAXIMA M. Determination of serum proteins by means of the biuret reaction 751
MACALLISTER, ROBERT V., HARMON, KENT M., and NIEMANN, CARL. The hydrolysis of N-benzoyl-DL-tyrosylglycinamide, N-acetyl-L-tyrosylglycinamide, and N-acetyl-DL-tyrosylglycinamide by chymotrypsin 767
FRIEDKIN, MORRIS, and LEHNINGER, ALBERT L. Oxidation-coupled incorporation of inorganic radiophosphate into phospholipide and nucleic acid in a cell-free system 775
BANERJEE, SACHCHIDANANDA, and GHOSH, NARESH CHANDRA. Effect of nicotinamide on blood sugar and blood acetone bodies of diabetic and normal subjects 789
KAUFMAN, SEYMOUR, NEURATH, HANS, and SCHWERT, GEORGE W. The specific peptidase and esterase activities of chymotrypsin 793
HENDERSON, L. M., SCHURR, P. E., and ELVEHJEM, C. A. The influence of fasting and nitrogen deprivation on the concentration of free amino acids in rat plasma 815
BURT, RICHARD L., and FALLERS, HARRY R., JR. Amino nitrogen retention in plasma following trauma 825
TOENNIES, GERRIT, and GALLANT, DOROTHY LEAF. Bacterimetric studies. II. The rôle of lysine in bacterial maintenance 831
BYERS, SANFORD O., and FRIEDMAN, MEYER. Hypercholesteremia in the rat after intravenous administration of cholesterol 841
HOGEBOOM, GEORGE H. Cytochemical studies of mammalian tissues. II. The distribution of diphosphopyridine nucleotide-cytochrome *c* reductase in rat liver fractions 847
SIBLEY, JOHN A., and LEHNINGER, ALBERT L. Determination of aldolase in animal tissues 859
TENNENT, DAVID M., and LELAND, MARGARET L. A procedure for the determination of 4-aminosalicylic acid (*p*-aminosalicylic acid) in blood and in urine 873
RACKER, E. Aldehyde dehydrogenase, a diphosphopyridine nucleotide-linked enzyme 883
SCHNEIDER, WALTER C., and POTTER, VAN R. Intracellular distribution of enzymes. IV. The distribution of oxalacetic oxidase activity in rat liver and rat kidney fractions 893
PEELER, H. T., DANIEL, LOUISE J., NORRIS, L. C., and HEUSER, G. F. Unidentified factors required by *Lactobacillus casei*. III. The nature of strepogenin activity 905
DANIEL, LOUISE J., PEELER, H. T., NORRIS, L. C., and SCOTT, M. L. Unidentified factors required by *Lactobacillus casei*. IV. Evidence for two growth factors in purified liver extracts 917
HIFT, HELEN, and WALLACE, G. I. A study on the synthesis of cystine by some lactic acid bacteria 927
WILLIAMS, WILLIAM L., HOFF-JØRGENSEN, E., and SNELL, ESMOND E. Determination and properties of an unidentified growth factor required by *Lactobacillus bulgaricus* 933

BRYAN, CARL E., SKIPPER, HOWARD E., and WHITE, LOCKE, JR. Carbamates in the chemotherapy of leucemia. IV. The distribution of radioactivity in tissues of mice following injection of carbonyl-labeled urethane 941
BORGSTROM, EVELYN, and GALLAGHER, T. F. Partial synthesis of compounds related to adrenal cortical hormones. XI. Reactions of Ring C ketols in the preparation of an 11-keto bile acid 951
LATIES, GEORGE G. Limitations of the use of potassium hydroxide-potassium cyanide mixtures in manometric studies 969
CROWLEY, JOSEPHINE F., HAMILTON, JOSEPH G., and SCOTT, KENNETH G. The metabolism of carrier-free radioberyllium in the rat 975

Letters to the Editors

ALTMAN, KURT I. The *in vitro* incorporation of the methylene carbon atom of glycine into rabbit bone marrow fats 985
SEALOCK, ROBERT RIDGELY, and DAVIS, NEIL C. The activating effect of *m*-nitroaniline on thiamine destruction by the Chastek paralysis enzyme 987
WINSTEN, WALTER A., and EIGEN, EDWARD. Vitamin B_{12} and related factors in the nutrition of *Lactobacillus leichmannii* 313 989
DABROWSKA, W., COOPER, E. J., and LASKOWSKI, M. A specific inhibitor for desoxyribonuclease 991
KITAY, ESTELLE, MCNUTT, WALTER S., and SNELL, ESMOND E. The non-specificity of thymidine as a growth factor for lactic acid bacteria 993

INDEX TO VOLUME 177 995
